
Ultimate Spoon Bend (T-229) by Tenyo Magic

Show your audience a solid metal spoon. Focus your psychic energy on it, and watch the spoon bend at your fingertips. As a surprising finale, the spoon breaks in half! You can hand out the two broken pieces of the spoon to your audience for examination, and they will find nothing unusual or out of the ordinary.

Spoon-bending is one of the most popular psychic illusions in the world. With the "Ultimate Spoon Bend," a metal spoon visually bends by itself without any cover or secret movements. Your audiences will shriek when they see the spoon bend! Once you have mastered this incredible trick, people will absolutely believe you possess true psychic powers. The enclosed spoon may be repeatedly used for multiple performances.

English instructions included.
