## **Zombie Ball (with folard and gimmick) by Mr. Magic**

The performer covers a large silver ball with a beautiful cloth (supplied). The performer holds onto the cloth by the corners. Like magic, the ball begins to float underneath the cloth seemingly on its own! Next the ball appears on top of the cloth then drops back down as if it has a life of its own. Finally, the ball comes to rest back on the table and the cloth is removed. This is one of the most beautiful effects in magic! A true classic of magic.
