
Chain Escape (with Stock & 2 Locks) by Mr. Magic

Imagine having a member from the audience chain you up; and within seconds you are able to escape! This is one of the easiest, fastest and most impressive of Handcuff releases ever to be released. It can be used either as an effect, or it can be part of any escape act, such as a Substitution trunk, Packing Box Escape etc. All the apparatus can be freely and thoroughly examined, there is nothing to be found! This magic trick is very easy to perform!
