
OUT-STANDING by Roberto Mansilla and Vernet - DVD

A Unique Stand Up Version Of *Out Of This World*.

Vernet is proud to introduce an incredible and unique Stand Up/Stage version of Out of This World.

Imagine this: The magician improvises two music stands with two glasses and two pieces of cardboard, one red the other one black. He gives the deck to the spectators asking them to shuffle it. After that, he begins to show cards showing their backs and asks the spectators if they think that those cards are red or black. As they answer, the magician leaves the cards against the corresponding cardboard pieces. Once all the cards have been dealt, the magician takes the cards leaning against the red cardboard piece and shows that all of them are: red! Then, he takes the rest of the cards against the black cardboard piece and shows that they are Black!

100% audiences tested.

As Pit Hartling has said: "OUTSTANDING" is a PROFESSIONAL, PRACTICAL and DIRECT version of Out of This World. It packs all the punches of Curry's original version and will amaze audiences from five to five-hundred.
