
Rising Card Miracle (Poker) by Dr. Schwartz

Have you ever wished to do the Rising Card effect while the deck is in the spectator's hand? Now you can!

Effect: Three freely selected cards rise from the deck while the deck is held in the spectator's hand!

The gimmick consists of a special miniature motor concealed in the deck. Unique to this method is the special weighted gravity switch that gives you complete control over the motor. It can be switched on and off simply by changing the position of the deck.

Comes complete with gimmicked Bicycle deck and detailed instruction sheets.

Gets great reactions!
