
The Mirage by Dani DaOrtiz and Luis De Matos

The Mirage is one of Dani DaOrtiz's favourite routines. It is a special deck of cards that combines elements of Hofzinsler's Transformation Pack and Robert-Houdin's Protean Pack. It enables the performer to transform a deck of fifty-two different cards into a deck that is all alike. Not just once, but twice.

In addition to the special deck you receive DVD instructions with Dani DaOrtiz performing and explaining his favourite routine with The Mirage deck. Three aces reveal the identities of two chosen cards. They magically transform into the first card and then the entire deck follows. Every card is identical.

This is repeated with the second selection. First the aces transform and then the deck. Finally the deck changes back into fifty-two different cards. Includes DVD featuring Dani DaOrtiz plus the specially printed deck.
