
Illusionary Appearances by Chris Stolz and Titanas - Buch

Chris Stolz is known as one of the top up and coming illusion designers in the industry today with incredible creations like his gorgeous looking sawing illusion "4 Way Split" or his incredibly practical levitation for the small stage "Sound Waves".

Titanas Magic Productions is please to release this collection of five appearance illusions for the stage. While these are not detailed construction blueprints, each illusion has been built and performed by many magicians all over the world. We are pleased to offer them together for the first time in print.

Here's what this book contains:

Aerial Arrival

An Appearance in mid-air while levitating

Honey, I'm Home!

An appearance in an empty doorway

Dressing Room In A Box

A door is assembled in pieces before making your magical appearance

Walk The Plank

A board is placed on two tables and a cloth raised above them to reveal your lovely assistant

Wide Angled Platform

A black art platform modification making setup and angles considerably easier and more versatile

This is fantastic set of illusion ideas that you will be proud to own, build and perform!

Pages: 31 - 8.5" x 5.5" - Saddle Stitched - Black and white illustrations and color photos
