## **Rudy Reindeer by SPS Publications**

A fun-tastic Christmas routine with Rudy the Flying Reindeer!

"He vanishes!"

"He flies invisibly through the air!"

"He goes down chimneys and through doors by magic!"

The performer shows a colorful cardboard plaque of Rudy Reindeer. Rudy couldn't fly like all of the other reindeer, so Santa gave him a magic cape -- and a special job. Rudy flies from house to house scouting out which houses have chimneys and which ones have doors, so Santa will know ahead of time where he needs to use his magic key.

To demonstrate Rudy going down a chimney, the performer slides him into an envelope printed with a chimney design. One volunteer holds Rudy in the chimney envelope while another helper holds an empty envelope with a printed door design.

The audience shouts the magic words, and the plaque is pulled out of the chimney envelope, Rudy is gone! A cut out area where he used to be is all that remains.

When the door envelope is opened -- oops! Rudy is NOT there! His little green silk cape tumbles out, but no reindeer. The cape disappears, but Rudy is nowhere to be seen. Finally, after a frenzied search and lots of enthusiastic "advice" from the audience, Rudy Reindeer is found to be clinging to the second helper's back! "He made it to the next house -- he just went around back."

Rudy Reindeer is lots of fun all the way to the hilarious finish. Kids love him! Be the first on your block to own this fabulous flying reindeer.

Everybody needs a little R&R -- that's why you need Rudy Reindeer!

Beautiful artwork by Gina "Cha Cha" Wollrabe. Printed on sturdy boards with a high-gloss protective coating. Made to last!
