
Dream Prediction Lite (Book, DVD, Props) by Paul Romhany - DVD

Paul Romhany's top selling one-person prediction routine just got better. The original Dream Prediction was one of the Top Selling Products for 2007, and now Dream Prediction Lite offers the same effect as the original, but more portable for most working conditions.

Dream Prediction Lite is the ideal prediction routine with no need for offstage assistants. With Dream Prediction Lite, Paul has included a few new subtleties that really help sell the effect actually making it stronger than the original.

Here is an example of one routine:

The magician talks about his dream holiday and tells the audience that he wrote it down on a large piece of paper and sealed it inside an envelope which can be seen at all times. The audience can see the prediction through the envelope at all times.

A spectator is asked to call out the name of a cruise ship they would like to travel on, the performer writes the answer down on a Clipboard for verification later on.

Another spectator is asked to call out a destination they would like to visit, again it is written down on the clipboard.

A third spectator is asked to count the change in their pocket and the amount is again written down on the clipboard. This spectator comes on stage to verify each of the items called out. The envelope is shown and opened, the audience can see the prediction fall out of the envelope and the spectator reads the prediction which matches EXACTLY what the audience chose.

This is an extremely adaptable routine, as you can use any presentation you like, such as a "Dream Date," a "Dream Car," or a "Menu" type routine in a restaurant. You are limited only by your imagination.

Everything in this routine is worked out through hundreds of performances, making it very easy to perform, giving you time to concentrate on your own presentation. If you have always wanted a mentalism routine that will play big and not have to worry about offstage help then this routine is for you.

Includes:

- Gimmick Envelopes that are smaller in size than the original making this more adaptable plus enabling you to perform Paul's NEW way of loading the gimmick and enabling you to show BOTH SIDES of the envelope prior to the prediction falling out.
- Clipboard
- A COMPLETE Instructional DVD with cruise ship performance AND a 'dream date' type routine that Paul uses at private parties.

Many top professional magicians around the world have added DREAM PREDICTION to their repertoire, and now YOU can add DREAM PREDICTION LITE to YOURS.

NOTE: *This kit is no longer includes a basic Sharpie.*

"The routine is excellently conceived and worked out. I have absolutely no doubt that I will use this successfully for many years. Thanks for making this available and whilst my initial reaction was that the cost was high, I feel it justified as it is way too good for the merely curious..."

- **Nicholas Einhorn**, *UK*

"Dream Prediction Lite is REALLY GOOD!! Simple method + killer effect = magic that works in the REAL WORLD!"

- **Matthew Johnson**, *Canada*
