

Multiplying Soap Bubbles by Magick Balay and Fantasma Magic - DVD

The magician blows some bubbles. As he touches one with his hand it becomes solid! More bubbles are then seen multiplying between his fingertips! In addition, you get the magic bubble bottle (soap bubbles not included), and everything you need to perform a professional multiplying bubble routine. The kit includes an instructional DVD with our very own Magick Balay and special handling advice from CEO of Fantasma Magic, Roger Dreyer.
