

Dry Hole by Bazar de Magia

The magician shows a dispensable glass, such as a paper glass or a styrofoam cup. He pours some liquid into the cup, drinks a little and then he breaks through the cup with a pencil. But, surprisingly, no water spills out from the holes!

Complete and ready to perform!

- Easy to do (no skill required)
- Can be performed surrounded
- No, there's no slush powder involved
- Use any liquid, any pencil.
