"David Regal's magic is just sensational, and the presentations are equally ingenious. He's fooled me, surprised me, made me laugh, and made me wonder. Most of all, he made me wonder where all these great ideas come from. Now every magician will know. They come from this book."

"Brilliance in action, David gives you his real world - real work."

- **Jeff McBride**

"I have had the privilege of experiencing Davids fine performances and lectures. David has the insightful understandings of magical theories that I have heard Professor Dai Vernon preach on for years. He understands what makes for good magic."

- **Richard Turner**

"In the UK, 'REGAL' is a brand of cigarette. David's material relates to this in two ways; It is of highest quality and it KILLS."

- **R. Paul Wilson**

violated after seeing it."

- **Derek Delgaudio**

"After reading three coin effects, 'Consolidation', 'An Attractive Vanish', and a 'A Quiet Good-bye', I can honestly say that they are stunning, cunning, and diabolical."
