

## Kids Party Video by Mark Leveridge - DVD

The Magic Party Video brings alive an entertaining mix of lecture and live performance footage showing Mark Leveridge actually using the ideas with children at a real party.

The main theme of the lecture is how to present a commercial Games & Magic package to bookers. Here Mark reveals a gold mine of totally practical and commercial ideas covering many topics from controlling children through to the actual games, magic and warm-ups. The live footage shows how the theory works and illustrates first-hand just how effective it all is.

If you've ever wanted to run complete parties, this video will set you on the right road. If you already use games and magic, this DVD will provide fresh ideas and routines for your act. \$34.95 (DVD only)
