

## Roberto Giobbi Taped Live DVD

The word is out about this great video-

*"I am so impressed. First, for a lecture video it is extremely well filmed and quite clear. Second, the magic and the thinking involved is absolutely phenomenal. I added three ideas to my performing repertoire. I cannot tell you how much material I typically have to wade through to maybe get one idea I'll use. I have been into magic for 26 years and see a lot of material as Project Coordinator for a major magic distributor. However, I learned so much important information from this tape simply in the thinking and attention to detail. Bravo. I feel like I found the treasure chest with The Roberto Giobbi Video." - Tim Trono*

This **112-minute, broadcast-quality video was shot with two cameras** and contains these truly great routines, which all receive the Giobbi treatment:

- **Wild Business**
- **The Peek**
- **The Master Grip**
- **Miracle Prediction**
- **Card to Wallet**
- **Sponge Ball and Bowl Routine**
- **LePaul Envelope Nest**

**Many of those who had the chance to see this lecture felt that it was probably the best ever presented at the British Close-Up Magic Symposium- and now you can see for yourself!**
