

ESPecially Wild trick

Effect

Two sets of colored ESP symbols are shown. You select an ESP symbol from your set and the spectator selects one from his set (Free Choice). The selected cards match. Stop right now, and you have a miracle! But, this routine has a kicker. Using the freely selected symbol you magically transform all the other symbols into the selected one! Strong visual magic. Comes complete with ten specially printed poker size Bicycle cards and photo-illustrated instructions. This new printing has all the cards changing into green stars.
