

## Mental Parano by Mickael Chatelain - Trick

### *Effect*

A spectator names any card they want (for example, the *Queen of Clubs*). The performer brings to attention a folded piece of paper secured with a rubber band around the deck of cards. It is their prediction. The selected card is found, removed from the deck and placed face up on the table. The deck is returned to the box and the performer unfolds the note and has the spectator read it aloud: "Your card is the *Queen of Clubs*!" Amazing!

Comes complete with gimmick Bicycle Deck and instruction sheet.
