

Perfect Peas (WHITE) by Whit Hayden and Chef Anton's School for Scoundrels - Trick

We have talked to many shell game operators that work the game for money. Few of them use sponge or latex peas.

They usually work with peas carved from pencil erasers as these work on more surfaces and do not "give out" during a routine.

It has taken a great deal of experimentation and effort to come up with what we call "The Perfect Pea."

These peas will work on any surface - including glass and marble. They do not lose their grip over time or with use as do latex peas.

Unlike the latex peas, these are uniform in size and shape, making them much easier to switch in and out, and offering many new possibilities for obtaining peas from droppers-as in our new "The Sharper," a Sharpie pen that will undetectably deliver up to four peas one at a time into the hand.

We also believe that magic and gambling demonstrations will be enhanced by the excellent look and feel of these peas.

Comes with a set of 5 Working Peas and two Straight Peas.
