Python Pull LITE Action by Hottrix - Trick

The multi-faceted use of reels has given magicians the ability to mystify audiences over and over again. The problem has been that most home made reels lack the power needed. Now, you have the power of a python up your sleeve. This reel's limits are bound only by the imagination of the magician. This reel is high quality, strong, and offers a fast snap back action ideal for stage performances. Steve and the Snake Babe have been using these reels in their Las Vegas stage shows with tremendous success, "They have never failed."

The Python Pull comes with a versatile loop so you can affix your favorite hook up. Included are two popular clips, a grabber clip and a lobster clip.
