

## Psychic's Credit Card by Menny Lindenfeld - Trick

### *A Credit Card for the Real Psychic*

An amazing concept from the mind of Menny Lindenfeld: a credit card for the real psychic! They'll swear you're PSYCHIC!

Suggest a bet: let a spectator hide a banknote in one of a few UNMARKED envelopes. If you perform in a pub or restaurant, let him hide it under beer coasters, or napkins. Your task will be to FIND THE BILL or face dire consequences - losing your hard-earned cash. If you win, the next round is on him.

Being so sure of your psychic abilities, you decide to add your very own credit card to the stake. The stage is set. Concentrate for a moment and always be able to FIND THE BILL, WIN THE WAGER, & GET THE FREE DRINKS!

***Instead of finding a single hidden bill you can also IDENTIFY the values of MULTIPLE BILLS or even detect other objects - PERSONAL CHECKS, business cards, certain finger rings, and more... limited only by your imagination.***

### How does it work?

A special credit card will do all the work for you. Remaining in view during the whole performance and looking just like a normal credit card, **Psychic's Credit Card™** will signal you the location of the bill.

- Original concept
- Simple and quick setup
- Perform anywhere and fully surrounded
- Credit card remains in full view during entire performance
- No switches
- No electronics
- Illustrated instructions with a wide range of performance methods
