

Flipper Coin - Canadian Quarter - Trick

A coin is shown from both sides. The coin is held between the thumb & first finger of the left hand & held by the outside of the coin. The right hand is shown empty & passes in front of the coin. The left hand now displays 2 coins between the same fingers. The right hand now takes one of the coins away leaving one coin between the left thumb & forefinger. The right hand is opened to reveal that the second coin has VANISHED!

This coin has many possibilities & will definitely be one of your personal favorites.
