

Roped by Bazar de Magia - Trick

Effect

*"It fooled me! This is clean, strong, straightforward magic. Send me one!"
-Henry Evans*

*Juan Pablo, one of the most innovative magicians in Argentina has done it again!
Roped is quite possibly the most surprising trick with ropes you have ever seen.*

The Effect: Show a piece of rope you are holding in your hands...and suddenly the spectators can see the rope is running into your coat and out of your right sleeve. Then, the other end of the rope is running out of your other sleeve! In a blink, the rope that was in front of your chest is now behind your back! You give the rope a tug and it goes straight through your body! The rope may now be handed out for complete examination by the audience.

No Sleights-very easy to perform!

Clever New Gimmick

Comes complete with the special gimmick, rope and detailed instructions.
