

Productions From Silks - Trick

Effect

Show three different colored silks, holding them in your fist by their corners. One at a time, separate them out and throw them up into the air so everyone can see (tacitly) that they are not hiding anything. When all three silks are brought back to their original position, the lower corners are slid over the hand, and instantly... a BOTTLE OF CHAMPAGNE appears, after which a DOVE and a BOUQUET OF FLOWERS can also be produced!
