

Stealth Assassin Wallet V1.1 by Peter Nardi and Marc Spelmann

Effect

When Peter Nardi created the Mind Spy and Stealth he had a very special wallet made for himself. Peter has used this wallet for the past 3 years, and to this day only one other person has had the pleasure of owning and working with the incredible wallet.

This is Peter Nardi's updated version of the best selling **Stealth Assassin**.

The **Stealth Assassin V1.1** has all the great features of the original but now with an extra pocket on the SUC side of the wallet and the magnets are now stitched in place!

Please note the original **Stealth Assassin** is no longer in production the new V1.1 is now the standard.

Do not be fooled by cheap imitations! The **Stealth Assassin** is the wallet of choice for many of the world's top mentalists!

Manufactured in high quality leather with a great attention to detail, the Assassin takes all the greatest elements from its predecessors and combines them to create something new and powerful!

This is truly the utility device for the mentalist. Carry the Assassin with you, and you will have a complete mentalism act in your pocket!

The **Stealth Assassin Wallet V1.1** is a 2-way peek wallet (including the SUC peek with permission from Mark Strivings). The effects one can perform with the Assassin are virtually unlimited. Among them are:

- Predict a credit card number.
- Have a spectator write or draw anything on the back of a business card. The mentalist can then read the spectator's mind and tell them what is on the business card, or the mentalist can choose to simply redraw what the spectator

has drawn.
