

## Stand Up Monte trick Garrett Thomas

*A Wonderful Marriage of Wild Card & Three-Card Monte*

It starts out easy enough...the magician displays a single 3 of Diamonds and plays a game of "one-card monte" with the spectator. Just to make things a little tougher, another card, the Ace of Clubs, is added which acts as the money card. After a few rounds, another 3 of Diamonds is added in and now the fun really begins.

No matter how hard they try, the spectator just can't follow the Ace! For the eye-popping climax, all of the cards are shown to have changed into the Ace of Clubs!

A fabulous trick perfect for strolling performances as no table is required and packs a lot of magic into a fun routine.

*Comes complete with specially-printed Bicycle cards and detailed instructions.*
