

Telethought Wallet (Original) by Chris Kenworthy - Trick

TeleThought Wallet is one of the most diabolical utility devices in magic. Its potential is limitless.

As they say "the sky is the limit," here. Virtually any "mind-reading effect" can be performed with the "**TeleThought Wallet.**" Design duplication, book tests, telepath experiments can now be presented under immaculate test conditions. Imagine using the "TeleThought Wallet" for preshow work! Or combining it with a "Brainwave Deck," "Invisible Pack," or "Precognition Deck." There is at least one other wallet currently on the magic market, which could vastly enhance its potential and ingenuity if it employed the same material presently utilized in the "**TeleThought Wallet.**" Something to think about.

Wallet Dimension Approximately 4 1/4" x 2 3/4" (10cm x 7cm)
