

Color Changing Dragon Fan 7"- Trick

Effect

A fan changes from Yellow to Red, then to Rainbow Colors, and finally to a beautiful decorated Dragon Fan*.

Although the effect is similar to the popular Color Changing Fan, this has a special construction, so that the complete fan changes color. There is also no obvious opening of the fan in opposite directions.

Comes complete with specially made fan; beautifully off-set printed in full color and laminated for long use, and instruction sheet.

**Note: Fan colors and dragon image may vary.*
