

Voodoo Doll by Top Hat Productions - Trick

Effect

The Magician shows a realistic looking voodoo doll. It is placed in the spectators hand to look at. It is just a little straw doll. When the magician lays the doll in his palm, it suddenly comes to life rising like a mummy out of a casket and stands up straight! Spectators will believe that an invisible force is making it rise up and down. The doll is completely under your control. No wires or threads.

A magical effect that you will always carry with you. 3" tall.
