

Cardian Angel trick by Paul Harris and Mike Maxwell

Effect

The Animated Angel Finds Your Friend`s Card...AND Their Name! A spectator selects a card and replaces it in the pack. As the performer flips through the Bicycle deck, one of the printed angels on the back starts to animate like a cartoon, flying off the bicycle and reaching into the mysterious "angel zone" before pulling out a playing card.

The animated angel begins turning the card over and it matches the spectator`s selection! But that`s just the beginning...once the angel has completely turned over the card it has the spectator`s name printed boldly on the face! Comes complete with specially printed deck of Bicycle cards which includes 150 different names and detailed, fully illustrated booklet.
