

Impromptu Card at Any Number trick Barrie Richardson

If you learn only one card trick in your lifetime, make sure this is it!

Learn why this is one of Barrie **Richardson's** favorite card tricks. Like you, Barrie knows hundreds of card tricks, but this demonstration is special. Here are a few of the features:

- The demonstration can be performed with anyone's cards with absolutely no preparation.
- The effect can be done close-up sitting at a table or as a stand-up performance piece in front of a large audience.
- The effect can be described by a participant in one sentence - "The card I thought of was found at the position in the deck I selected."
- The stunt is stunning and memorable.

Comes complete with fully detailed instructions from Barrie himself. You supply the cards and the reading.
