

## **Candle to Fan by Michael Lair - Trick**

### *Effect*

Candle to Fan is the latest creation from Michael P. Lair. Light a 15" red, tapered candle. When the flame goes out, a beautiful, red cloth dragon fan is there in its place. Candle to Fan is so well made and easy to use. It is all self-contained. After the lit candle transforms into the red fan, you can then transition into Snowstorm in China, or any other fan routines! This is extremely visual stage magic!

*Dimension* Approximately 13" x 1 1/4" (33.02cm x 3.175cm)
