

Subliminal Effects (CD Set) by Kenton Knepper - Trick

Kenton is releasing at last some of the secret CDs he has used to make a deep impression on clients and everyday audiences.

The first CD package creates instant credibility. You will be able to prove immediately that you are a trained and certified expert in subliminal programming and telepathic influence.

Gather a group of friends together and watch as they learn to pick up on subliminal influence... You'll perform for 30 minutes, and the most you need do is a card force and equivoque (only once each) - and only if you wish to add these in. You do not need to perform these to use the majority of the CD.

Your friends will be highly impressed as they begin to accurately pick up on the subliminal cues on the CD (yes, these subliminals are really on the CD).

Kenton has used such audio devices to instantly generate respect and credibility as a mentalist, suggestionist, hypnotist and more.

Put on this CD, tally up the amazing results, and your guests will be so intrigued that they will be begging you to talk more about your abilities and special knowledge.

This is the perfect introduction to mentalism performed in your home, as a lead in to booking hypnosis or mentalism shows with a small group, "training" people to tune into subliminal, telepathic or personal intuition, selling subliminal CDs, and more.

Kenton's special wording, psychological forces and applications, subliminal recording, sound marking and other sneaky things are at work on the CD - so that you don't really have to work at all.

All that you need do is show your Certified Tester's Certificate (included) and then focus on interacting with your guests as the "official" CD plays.

Then be prepared to be taken VERY seriously.

All with little work on your part.

Subliminal testing CD, Detailed Instructional CD by Kenton himself, and Two Certified Subliminal Tester Certificates included.

Sure there's a trick to it all - but your guests and audiences will think it is as legitimate as can be.

These CDs helped make Kenton's reputation as a serious investigator of suggestion and mentalism. The CDs can do the same for you - instantly.

Frankly, it's also just a lot of fun for both listeners and performer!

Make for a memorable evening in your home or group with Kenton's special "Subliminal Effects CD Set".

Important!: If you want to appear as just a typical trickster, do NOT order this special set. This special set is for those who wish to appear legitimate and well-trained in suggestion and/or telepathic influence only.

CD 1 Running Time Approximately 36min

CD 2 Running Time Approximately 60min
