

Copin's ITS (Instant Thread Security) by Bruno Copin - Trick

Ever 'lose' a thread in the middle of a performance? Well now you have **I.T.S.** to back you up!

Instant Thread Security is essential for all those who use the invisible thread! Very practical and easy to use, fits in your pocket and is magnetic. It makes it possible for the magician to immediately setup a new thread ready to go, even under the nose of the spectators!
