

Deja Zoo by Samuel Patrick Smith - Trick

You show the audience a set of various zoo animals on 4.5" x 7" flash cards. Two spectators stand up in the audience and *think* of any one of the animals as you show them all of the cards. Picking up a blank card and a felt-tip marker, you attempt to read the minds of the spectators and draw a quick sketch. You place your predictions on a card stand, and for the first time, the spectators call out the animals they selected. You place their selections on the stand next to your sketches, **and when the stand is turned around, you have correctly guessed their choices!**

- **Large Cards Are Easily Visible from a Distance**
- **Great for Kids and Adults**
- **Works Every Time**
- **You Never Have to Actually Draw Anything**
- **Comes Complete with Cards, Stand and Marker**
