

Jumping Jacks by DARYL

JUMPING JACKS

is Daryl's special routine and handling for the classic \$100.00 Ace Assembly. The four jacks are placed face up on the table and each is covered with three extra cards from the deck. One packet is placed in the spectator's pocket for safekeeping. One at a time, the spectator causes the remaining three Jacks to magically vanish from the table. Each Jack is clearly seen until the very moment before it vanishes. In a surprise finish, the spectator removes all four Jacks... from his own pocket!

A fascinating aspect of this routine is that the spectator performs the magic yet He or She has ABSOLUTELY NO IDEA how the mystery was accomplished! You finish clean and everything can be examined. Includes all gimmicks and detailed online instructions.

JUMPING JACKS cards have been printed exclusively by the United States Playing Card Company. These cards can be used with any poker size deck of Bicycle, Tally-Ho, Aviator, Squeezers, Aristocrat or Bee cards.
