

Lounge Edition in Tarmac Black with Limited Back (Unmarked)

Following their predecessors, Jetsetter Playing Cards has produced the **Lounge Edition** as another vintage and classy deck with modern appeal. Continuing to be inspired by casino and airline decks of the past, the clean and simple design fits with the rest of the Jetsetter Playing Cards fleet.

With the Limited Back version of the **Lounge Edition** in Tarmac Black, the deck provides an upgraded feel over the Standard Back version. The cards showcase re-colored standard faces and have an untraditional offset classic and casino inspired back design that pays homage to the runways utilized by airlines across the globe with the black colorway. On the Limited Back version, the back design is upgraded with both silver foil and clear UV spot varnish. The cards are traditionally cut to provide the ability to weave or faro shuffle facedown. The tuck box exhibits premium features with a durable synthetic stock material, clear UV spot varnish, and more silver foil than the Standard Back version.

This deck is limited to a production run of 1,000 decks and has an individually numbered perforated seal.
