

Tumi Magic Presents TRAPPED by Erick White

Tumi Magic presents TRAPPED by Erick White

Imagine being able to catch a signed card from the spectator in an item as commercial as a Tic Tac, it's incredible right? An element so well known in the world and now you can do magic with it at your fingertips.

With Trapped it is now possible, a subtly crafted gimmick to create amazing and unexpected reactions.

Trapped has very important proposals:

- **The spectator can have Trapped, Tic Tac gimmick, in his hands before doing the effect.**
- **You don't need to prepare anything, you just have to know the mercury fold technique, I'll teach you**
- **The reset is instantaneous (less than a second)**
- **Your hands are clean after performing it**

In August 2023 at Magic Live we sold out Trapped, the response was incredible and as you can see in the video, we went for a walk to perform it in downtown Vegas and the reactions are surprising, the viewer has no suspicion that what they have in his hand is a gimmick, the trick is invisible to the eye and the result is incredible.

Trapped is 90% ready to use out of the box, you just need to add a normal Tic Tac and attach the gimmick, double tape included. We do not add it for transportation and practicality reasons.

Each product has 2 gimmicks: 1 blue and 1 red from the Bicycle brand. Also, some Tic Tac shaped stickers to hide the magnet that you must place inside the Tic Tac.
