

Ultimate Forcing Deck (Red) by JT

The **Ultimate Forcing Deck** is a utility tool to force a card very cleanly without sleight of hand. It avoids the disadvantages of traditional forcing decks.

Advantages:

- The handling is very natural. It just looks like picking a card as normal. And the spectators will feel nothing during the process of picking a card.
- The forced card is totally clean. No roughing fluid on it. So, we can use this deck to perform the tricks which need to destroy the chosen card. Then we just need to put a new card back into the deck. And the deck is complete again.
- Because of the special material, the **Ultimate Forcing Deck** is durable.

The **Ultimate Forcing Deck** is not only an accessory, but also a trick deck contains different magic routines itself. You can perform many routines with it.
