

Vermilion Bird Classic Box Set by Ark - Pokerdeck

The collector's display box matches the aesthetic of the playing cards' tuck box, exuding a sense of majesty and luxury. The appearance, including the text, is foiled, shining with a metallic luster.

The inner lining of the gift box is adorned with decorative patterns echoing those of the playing cards: golden vines, flame, pearls... The same exquisite cut-outs found on the tuck box also make an appearance here.
