John Guastaferrero burst onto the scene in 2010 with the launch of his book *One Degree*. To this day, *One Degree* remains one of Vanishing Inc.'s bestselling books and magicians around the world have clamored for a sequel. That day has finally arrived with the release of **Nth Degree**. John has spent more than a decade exploring the farthest reaches of the revolutionary "One Degree" concept. He has refined these routines in front of real audiences to ensure that only the best of the best material made it into the pages of **The Nth Degree**. Every single one of these effects is as entertaining as it is astonishing.

"There are a few pockets of genuinely good thinking in magic scattered around the world. John Guastaferrero occupies one of them."

- **Stephen Minch**

From refreshing takes on four-of-a-kind routines to interactive effects and even visual stunners like a slow-motion deck vanish known as "Double Vanish", John offers a wide array of material for all different skill levels and performance styles. He has even found ways to amplify classics like adding an extra layer to the "Omni Deck" with his "Crystal Clear" routine or his stunning new kicker for Woody Aragon's "How to Find Your Other Half" where the eliminated pieces also match.

"Just as someone who loves music can identify a song by Gershwin, a person who loves magic can identify an effect by John Guastaferrero. He's that good."

- **David Regal**

As you work through these remarkable routines, you'll be treated to a mix of versatile new sleights that can be added right into your arsenal like the "Hands Off Half Pass" and "Proximity Peek Control".
