

Fantastic Frame de Luxe

If you love finely crafted props, then the Tricksupply version of the **Fantastic Frame** is certainly worth your consideration.

Three silks are seen tied to a rod running through an open frame when the front and back doors are opened. The silks are removed, and the doors closed. The silks then vanish with the performer's favorite method and when the doors are opened, they have returned to the rod!

I like this effect a lot and I always wanted to have a version manufactured that is elegant in design and a little smaller than what was out there. I ended up with a rich deep brown finish that is smooth like a furniture finish. This is made overseas for me, but the quality truly matches those of American craftsmen.

The operation is very easy, and you can fully concentrate on the performance. I opted for an outside dimension of 11 x 5 x 13.5" so it is smaller than most out there yet still easily visible.

You provide your own silks and preferred method to vanish them (Rip-Apart Change Bag is not included).
