

The Rabbit In the Hat by Creativity Lab

Do you know when people ask you if, besides magic, you're also capable of performing love?

Show the spectator a thimble shaped as a bunny. Now, put the bunny into your fist and, using the mini magic wand, the bunny disappears into thin air. To make the rabbit reappear, take out a small carrot from your pocket and hold it in your hand; the bunny will reappear, grab the carrot, and vanish again! Easy to do, ready to go!

The rabbit and the carrot have magnets inside so the rabbit can "pick" up the carrot, like the "little hand" magic trick.

Note that the inner diameter of the rabbit is 17.5mm, so check if it could fit in your index finger.
