

Gemini Ring Brass by Chazpro

GEMINI RING - BRASS by Chazpro! White rope version

Gemini Ring

- Perform your favorite ring off rope effects with this clever variation of the classic Ellis Ring. Includes a booklet of routines and handling tips from inventor Chuck Leach.

One routine features a magician removing his wedding ring in a magical way, then going into a multi-phase ring off rope routine. The opening of this routine offers a novel method for showing a large ring on your finger, so it appears tight, even when you show both sides of your hand. You then thread the rope through the ring, pull and stretch the ring, and make it penetrate through the finger.... then the routine starts.
