

## **Flick! Jug by Lumos**

**The Flick! Jug making miracles with just a flick!**

**The effect:**

**The magician pours popcorn kernels into a translucent jug and with a tiny shake, the popcorn instantly pops and overflows over the top of the jug. This unique utility device can enable many such effects such as the appearance of bills, silk color changes, and much more. The gimmick does all of the work so, no big motions or complicated sleight of hand is necessary. Failure is virtually impossible with this one-touch method. That is great for beginners looking to build fun and engaging closeup and parlor routines.**

**What's in the box?**

- **The Flick! Jug**
- **10 spare rubber bands (refills are available)**
- **QR code that links to the online instructional video.**
- **Can be easily customized for right or left-handed performers.**

**Produced by Lumos Magic, created by Yuji Enei and GATTY**
