

## **Sonic Dice by John Kennedy**

Three dice vanish from your hand and magically appear, one at a time, inside a thermos or cup. Your audience will be shocked and amazed by the loud sound of each arrival!

You will receive three different colored dice and the secret gimmick. Use your own thermos or cup.

John teaches everything in online instructions including variations on the vanish of the third die. You'll love performing this, as John's recently improved handling is the most practical and reliable ever!
