

## Card Duck

Ask someone from the audience to choose a card, put it back in the deck and shuffle it. Then put the deck in the little box in front of the duck and the show begins. Holding the duck in your hand, this will magically move its neck towards the deck, opening its beak and seizing one card from the box. Guess what? The card it picks is the one chosen by the spectator!

- It is a wooden duck with a mechanic engine.
- We supply it in a full colour packaging.
