

## Huzzle Cast Enigma - Difficulty Grand Master

Patented in America in 1975, the somewhat swirled pieces of this puzzle by Eldon Vaughn must be disjoined and then put back together.

I once found a smaller version of this puzzle about twenty years ago in America, but considered it impossible to solve at the time.

We have made a new version maintaining the difficulty of the original and licensed it for the Cast Puzzle series.

This is without a doubt among the most difficult of all puzzles.

The key word is "twist."

Don't use too much force... the pieces should just slide apart.
