

Flash Coin by Andrew

From Brasil to the world. Your audience just won't believe what they will see!

COIN FLASH will provide a fantastic visual effect of transposition with coins.

Using only one coin on a card, they will see that it "crosses" a second card that is placed as an obstacle in its path!

It's unbelievable!

The gimmick is very ingenious and is carefully manufactured by very skilled artisans.

Other routines and exchanges with coins can be developed with this gimmick.
