

Bicycle - Cinder Playing Cards

Bicycle Cinder is inspired by the elegant and mysterious swirling smoke that wafts above smoldering fires. The tuck design presents varying tones of ashy greys and includes a gleaming silver foil with two levels of embossing for a 3-D effect. It also includes a custom closure seal. Opening the tuck reveals a brilliant surprise. The inside of the tuck is printed with warm, golden colors, representing the glowing embers from which the smoke drifts.
