

## Bicycle Aura Playing Cards

The AURA is the (mostly) unseen atmosphere which surrounds a source; a music note, a flavor, a mood, a halo...

The human body consists of layers. We are a physical body which can be experienced by all senses, but we are also surrounded by energy fields, not so easily seen with the naked eye.

You will not need clairvoyant abilities to decipher these invisible layers of color. This deck will awaken you to the energies which surround all living things. This beautiful, color-infused deck is blessed with good karma.
