

Pocket Prestige by Henri Beaumont

Take a moment out of time with "Pocket Prestige"

Experience the thrill of a truly immersive magic performance that takes your audience on a journey to a magical theater from the early 20th century.

An Elegant Escalation of Astonishment...

The routine begins subtly, with an innocent-looking packet of cards, but soon enough, the magic begins. The first card reveals a small miracle... a hint of what's to come. Your audience is drawn into the unfolding story, each step bringing them deeper into a realm of mystery and wonder.

But that's only the beginning. As you move through the phases, each effect builds upon the last, escalating in impossibility and leaving your spectators in awe. By the time you reach the grand finale, your audience is fully immersed in a moment of pure astonishment - and just when they think they've seen it all, you reveal the final surprise that leaves them speechless.

Inspired by the Legendary John Bannon

This routine pays homage to the remarkable work of John Bannon. Henri Beaumont has always loved his work and brilliant thinking behind packet tricks. He had the chance to present this creation to Mister Bannon and get his endorsement. What a nice moment in this journey... Now, it is an honor to share this with you - a pocket-sized show that delivers a crescendo of effects leading to a spectacular finale.

Perfect for Stage and Close-Up Performers Alike

Whether you are looking to create an intimate moment on stage or deliver an up-close wonder, Pocket Prestige is the perfect tool. It's entirely self-contained and examinable. You end clean every time, with nothing to hide and everything to admire.
